

If not installed already, download the image capture plug in from here:

<http://screencheck.com/wp-content/uploads/software/image-capture-plugin/SCImageCapture.zip>

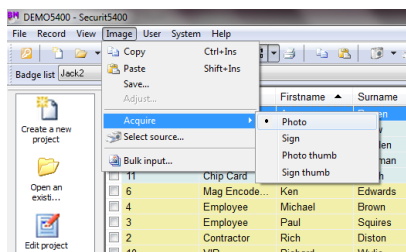

Click Image > Select Source:

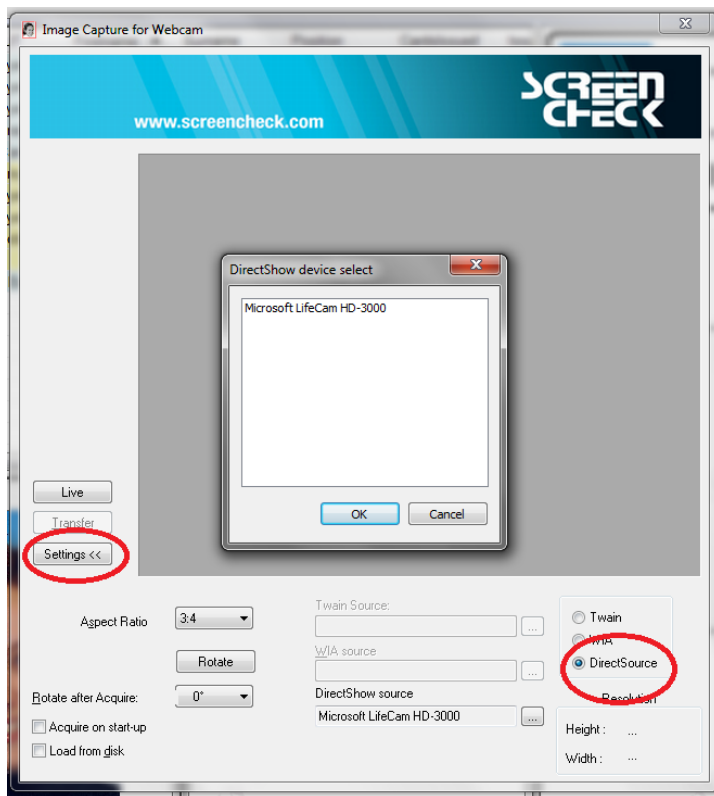

Click Photo, then the Custom dropdown, then Image Capture, then OK:

Click Image > Acquire > Photo:

Click Settings > Source > Direct Show > Select your Webcam:

Click Live, and your webcam will turn on. Click Freeze, then Transfer to capture the picture:
